I am a fourth-semester D4 Informatics Engineering student at Universitas Airlangga, passionate about web development and always eager to explore new technologies. I thrive in collaborative environments, bringing enthusiasm and a never-give-up attitude to every project I join. As someone who genuinely enjoys working in teams, I believe that the best solutions emerge from shared ideas and open communication. TEDx Universitas Airlangga represents a meaningful opportunity for me to grow — both technically and personally — while contributing real value to an event that inspires and challenges people to think differently. I am committed to learning without limits and delivering my best alongside a motivated team.

EDUCATION (FORMAL AND INFORMAL)

**D4 Informatics Engineering — Universitas Airlangga,
Surabaya**

2024 – Present

Current GPA: 3.66/4.0

SMA Wachid Hasyim 5 Surabaya

2021 – 2024

Natural Sciences — GPA: 92.4

WORKING OR ORGANIZATIONAL EXPERIENCES

Please see the 3 most notable organizational experiences below, all currently active.

No.	Company or Organization	Position	Start–End (Year–Month)	Objectives or Targets	Strategies	Skills
1.	D4 Informatics Engineering Student Association Universitas Airlangga	Head of Perhubungan Department	2025 – Present	Strengthen internal and external communication within the student association while ensuring all departmental programs run	Led and mentored 21 members in executing 10 departmental programs; supervised project lifecycle from concept to evaluation; served as Vice	Leadership, Team Management, Event Planning, Communication

No.	Company or Organization	Position	Start–End (Year–Month)	Objectives or Targets	Strategies	Skills
				effectively and on schedule.	Chairman of Teknovistafest, a national UI/UX competition.

*) Objectives: Desired output and the goals of the working activities

**) Strategies: Key tasks to accomplish the objectives

***) Skills: Skills used and acquired

ACHIEVEMENTS / HONORS / AWARDS

3 most notable achievements for the last 5 years.

No.	Achievements	Level	Year–Month	Additional Details
1.	Top 20 — Internal PKM Selection, Universitas Airlangga	University	2025	Ranked in the Top 20 of UNAIR's internal Student Creativity Program (PKM) selection, demonstrating strong analytical and scientific writing skills.
2.	Vice Chairman — Teknovistafest (National UI/UX Competition)	National	2025	Served as Vice Chairman of Teknovistafest, a national-scale UI/UX competition and seminar with participants from leading universities (UI, ITS, Binus) and speakers from Apple Developer Academy.
3.	GPA 3.66/4.0 — D4 Informatics Engineering	University	2025	Maintained a strong academic record while actively leading organizational responsibilities and building technical project experience across front-end and full-stack development.

*) Level: University/School Level, Regional, National, or International Level

**) Additional Details: Roles and relevant information

TECHNICAL EXPERTISE

Front-End Development

- HTML5, CSS3, JavaScript — responsive layouts, interactive UI
- Tailwind CSS, React JS, Next.js — component-based modern web interfaces
- Framer Motion — animation and interaction design

Back-End Development

- PHP, Laravel (Blade) — full-stack web applications with MVC architecture
- MySQL — relational database design, CRUD, Triggers, Functions, Views
- Supabase — backend-as-a-service, PostgreSQL, REST API integration

Mobile & Tools

- Flutter — cross-platform mobile application development
- Figma, Canva — UI/UX design and prototyping
- Microsoft Office Suite, Git/GitHub — productivity and version control

Soft Skills

- Collaborative Teamwork — effective cooperation in cross-functional and multi-discipline teams
- Adaptive Learning — high curiosity and rapid adaptation to new technologies and workflows
- Problem Solving — analytical thinking and persistence in technical troubleshooting
- Communication — clear, structured communication with good time management

RELEVANT PROJECTS

Bloomerie Bouquets | Front-End Project

- Designed and built a flower bouquet e-commerce website using Next.js and Tailwind CSS v4.
- Implemented smooth animations inspired by TEDx event design language using Framer Motion.
- Integrated a WordPress CMS backend to manage blog and product content seamlessly.

Elmar Cafe & Eatery | Front-End Project

- Built a responsive landing page with HTML5, CSS3, and JavaScript for a culinary business.
- Applied Flexbox and CSS Grid for consistent cross-device layout rendering.
- Implemented sticky navigation, smooth scrolling, and interactive UI components.

Rumah Sakit Hewan Pendidikan (RSHP) | Full-Stack Project

- Developed a hospital management system using PHP, Laravel Blade, and MySQL.
- Implemented full CRUD operations and a secure authentication system for hospital staff.

Inventory Management System | Full-Stack Project

- Built a web-based inventory system with PHP and Laravel, featuring stock, sales, and procurement tracking.
- Engineered advanced MySQL logic using Triggers, Functions, and Views for data automation.
