I am a fourth-semester D4 Informatics Engineering student at Universitas Airlangga with a strong interest in web development, both frontend and backend. I enjoy building interactive and functional web applications that combine clean design with solid system logic. I am continuously developing my skills in modern web technologies through personal projects and organizational involvement.

I have a strong curiosity for how systems work behind the interface, from user experience on the frontend to data processing on the backend. I also enjoy collaborating in teams, as I believe good communication and teamwork are essential in delivering effective and scalable digital solutions. Through this opportunity, I hope to further improve my technical skills, gain real project experience, and contribute actively by delivering reliable and well-structured web solutions.

EDUCATION (FORMAL AND INFORMAL)

Undergraduate Informatics Engineering Universitas Airlangga, Surabaya	2024 - Present
--	----------------

- Current GPA: 3.66/4.0 (*19 credits*).

High School Diploma – SMA Wachid Hasyim 5 Surabaya	2021 - 2024
---	-------------

- Ranked 2nd in class (Top 10 graduate)
- Silver Medalist at the 2023 Mathematical Olympiad

Junior High School – MTsN 4 Surabaya	2018 - 2021
---	-------------

- Ranked 3rd in the graduating class

WORKING OR ORGANIZATIONAL EXPERIENCES

No.	Company or Organization	Position	Start- End (Year-Month)	Objectives or Targets*	Strategies**	Skills***
